

EXTENSION: EXPRESSION OF INTEREST FOR CLINICAL EVALUATORS OF HEALTH PRODUCTS AND ADVISORY COMMITTEE

BACKGROUND

The South African Health Products Regulatory Authority (SAHPRA) is responsible for regulating all medicines, and medical devices in South Africa by ensuring that they meet standards of safety, efficacy and quality. SAHPRA operates in terms of the Medicines and Related Substances Act, 1965 (Act 101 of 1965), the Regulations issued in terms of that Act, and associated guidelines. SAHPRA has also been delegated the task of overseeing radiation control in South Africa. This function is governed by the Hazardous Substances Act (Act 15 of 1973) which aims to protect the public (e.g. workers, patients) against radiation used in both health settings and in industry. SAHPRA's function is therefore to promote public health and safety by ensuring that all medicines and medical devices that are available and used in the country are safe, effective and of good quality.

This document provides an overview of desired skillsets for external expert evaluators required by SAHPRA to support its evaluation processes as well as for members who will be considered as the CEO Advisory Committee members.

REQUIRED TECHNICAL EXPERTISE

SAHPRA requests the submission of curriculum vitae (CV) by persons with experience in the disciplines of bioequivalence; pharmacology; clinical and clinical trials; vigilance. CVs will be considered for potential appointment as external expert evaluators and or a member of the advisory committee.

Interested individuals should explicitly indicate in the cover letter their area of expertise and interest in relation to the above discipline.

DESIRED KNOWLEDGE & SKILLS
