

COMMUNICATION TO STAKEHOLDERS

Issue No.: CT02-2023

12 December 2023

Pilot: Clinical Trial Applications Electronic System

Good day,

As you are aware SAHPRA has embarked on a process to digitalise its business processes. A pilot electronic process is planned for new medicinal clinical trial applications for the month of January 2024. The official launch of the system for all new medicinal clinical trial applications will be on 05 April 2024.

The submission of pilot Clinical Trial Applications is anticipated to be on 17-19 January 2024. In addition to the pilot, the applicants will be required to submit the applications through the current process.

We would like to invite applicants who have any new applications that are due for submission that would like to participate in this pilot to contact the central mailbox, ctresponses@sahpra.org.za and cc kedibone.malatji@sahpra.org.za.

The selected applicants will be invited for a training session that will be held virtually via MS TEAMS between 12 and 17 January 2024.

If you could kindly indicate your interest by 08 January 2024 to arrange the training of volunteers. In addition, please indicate the therapeutic area of the clinical trial.

SAHPRA envisages that the benefits of the electronic system should result in:

- Easier workflow
- Improved data retention
- Reduced timelines
